

External Data Access Fee Exemption Request

As noted in the Data Use and Access Policy, the New Jersey Statewide Data System may charge a fee to develop and process data. This policy ensures that the data is accessible to eligible parties, while also supporting the financial sustainability of the system. Fees may be waived for current students who meet the access eligibility criteria, state agency staff, or staff of related non-governmental entities such as local school districts, colleges, or workforce development boards. Requestors may upload this fee exemption request with their application.
